Summary

Motivated and growth-driven Computer Science graduate with strong hands-on skills in full-stack development and AI automation. Known for rapid learning, obsession with building, and consistent project delivery. Seeking a high-impact internship or entry-level opportunity in tech.

Skills

Languages	JavaScript, Python, C++, HTML/CSS, TypeScript
Frameworks	React, Node.js, Express.js, MongoDB, Prisma, Tailwind CSS
Tools	Git, Figma, Postman, Firebase, VS Code, Cloudinary
Others	REST APIs, AI Automation, Web Scraping, Responsive Design

Projects

Real Estate Web App React, Node.js, Prisma, MongoDB

- Built a full-stack responsive platform for listing, filtering, and booking real estate properties.
- Features: Authentication, Agent Dashboard, Book Visit, City-Based Filtering.

AI Automation - YouTube Comment Summarizer

Python, Flask, OpenAI API

- Scrapes YouTube comments and summarizes them using GPT. Frontend built with Flask.

HamroBazar Property Scraper

Python, Selenium, BeautifulSoup

- Scraped and parsed property listings from HamroBazar for analysis.

Education

B.Sc. Computer Science

[University of Wolverhampton], [Wolverhampton]

2021–2025

- Final Year Project: Real Estate Web Platform with Agent-Client Interaction

Certifications

- JavaScript Mastery – FreeCodeCamp
- AI Automation with OpenAI – Self-Taught
- Responsive Web Design – FreeCodeCamp

Leadership & Involvement

- Led mini automation workshop at college tech club.
- Mentored peers in web project deployment.

Personal Traits

- Top 10% learning speed — learn new tech in hours.
- Always shipping — believe in building > consuming.
- Strong growth mindset, debug-first thinker.
