

PRINSHA KHADKA

Backend Developer — AI Engineer
+977-9865265076 | prinshakhadka36@gmail.com | GitHub | LinkedIn

Professional Summary

Backend Developer and AI Engineer with experience building scalable Django backends and AI-powered applications. Skilled in Python, FastAPI, REST APIs, LLMs, Retrieval-Augmented Generation (RAG), LangChain, ChromaDB, and machine learning. Passionate about building production-ready intelligent systems.

Education

Samriddhi College, Bhaktapur
Bachelor of Computer Application (BCA)

Jan 2025

Skills

Languages: Python, JavaScript, SQL

Backend: Django, Django REST Framework, FastAPI, Node.js, REST APIs

AI/ML: LLMs, RAG, LangChain, ChromaDB, OpenAI API, TensorFlow, Keras, Scikit-learn, OpenCV, Pandas, NumPy

Databases: PostgreSQL, MySQL, SQLite

Tools: Git, GitHub, Docker, AWS, Linux, Postman

Experience

TechYatra Labs Pvt. Ltd.

Jan 2025–Jun 2025

Backend Developer

- Developed scalable Django backend services supporting 10,000+ concurrent users.
- Built REST APIs, JWT authentication and integrated third-party APIs.
- Contributed to School ERP modules for attendance, grading and finance.

UXQODE

Aug 2025–Nov 2025

QA Intern

- Developed and tested Django REST APIs.
- Optimized SQL queries and improved application performance.
- Performed automation testing using Playwright in Agile teams.

Projects

AI Job Assistant Agent – GitHub

Python, FastAPI, LangChain, ChromaDB, OpenAI, RAG

- Built an Agentic AI application for resume analysis and candidate-job matching.
- Implemented RAG using ChromaDB for semantic retrieval.
- Integrated LLMs for hiring insights and recommendations.
- Designed a modular multi-agent architecture with vector search.

Face Detection & Gender Classification

- Built a real-time OpenCV and deep learning application achieving over 90% accuracy.

Hospital Readmission Prediction

- Developed ML models using Scikit-learn and feature engineering.

Django E-Commerce

- Built a full-stack e-commerce platform with authentication and payment integration.

Certifications

AI + Data Engineer – Leroy AI Company (2026)

Python with Django – Broadway Infosys (2024)
